How will the HEI supervisors work with IWM for the benefit of the student?

How do you envisage the collaboration operating? What role will the student have in shaping the direction of the project? If the distance between the cultural heritage organisation and university is considerable, how will this issue be addressed?

(Maximum length is 500 words)

How did you find out about the CDP opportunities at IWM?

This information will be used for IWM's reference purposes.

NB: the CDP studentship needs to be truly collaborative and work for the benefit of the student and the project. IWM expects HEI partners to make reasonable adjustments and show flexibility to the Student with regard to usual institutional arrangements and restrictions regarding PhD studentships, which may impinge on the collaborative nature of the studentship e.g. residency requirements.
