My ownest little Dod,

I got your wire & replied asking you to meet me 12.20 York, train from Birmingham. I have also had a wire from Mrs Burch asking me to come & see her.

Everybody must put their personal considerations in the background now, & I don't believe you'd be so selfish as to try & stop me doing my part. Possibly you don't realize that this is a life & death struggle with Germany. Everybody who could do something & won't is a beastly unpatriotic kind of person. I'm the last person to be a Jingo & hate flag-wagging & Union Jack hurraing etc but I do feel that I might be useful, with my motor or without it, in case of attack by Germany & so I've offered my services...
